Dear ANN OLIVARIUS:

This is to advise you the Medical Board of California (Board) has completed its review of your recent correspondence regarding CALVIN HAYES HIRSCH, M.D.

Pursuant to Business & Professions Code section 2230.5, any accusation (formal charges against a physician's license) filed against a licensee shall be filed within seven years after the act or omission/incident. As such, the Board's investigation must be concluded, the case transmitted to the Attorney General's Office and the accusation filed by the Attorney General's Office before the seven year time limit expires. If a complaint is filed with our agency just before the seven year time limit, the Board may not pursue the case because there was not have enough time to obtain all necessary documents and have them reviewed before the seven year statute of limitations expires. Based on this requirement, given the age of the incident cited in your complaint, the Board is unable to pursue further action and the complaint has been closed.

Thank you for contacting the Medical Board of California. We regret we are unable to be of further assistance at this time.

Sincerely,

CASSIE DAVIS
